The *Emergency Response and Salvage Wheel* and *Field Guide to Emergency Response* were developed by Heritage Preservation in support of the Heritage Emergency National Task Force, a partnership of 41 government agencies and national service organizations. The Task Force is co-sponsored by Heritage Preservation and the Federal Emergency Management Agency.

The *Field Guide to Emergency Response* was made possible by a generous grant from the National Endowment for the Humanities. BMS Catastrophe is the corporate sponsor of the *Emergency Response and Salvage Wheel*.
